

# NOVA SLIDER WP by Extendyourweb

## Installation

You can install it directly from your wordpress administrator: Within the plugins section select "new plugin". Then select the option "upload" to upload the plugin.

Another way to install it is to unzip the zip file and upload the resulting folder to the wp-content/plugins/ folder on your wordpress.

Once installed the plugin remember you have to activate it to use it.

## Slider admin

Once activated the plugin you have to go to the plugin admin to create and manage your sliders.

Inside your wordpress administrator will see the menu "Nova slider". Inside you can create and manage your sliders.

The screenshot shows the Nova Slider admin interface. At the top, there are two buttons: "NEW NOVA 3D SLIDER" and "NEW NOVA 3D SLIDER DEMO". Below these is a table with the following columns: SLIDER, OPTIONS, SHORTCODE, PHP CODE, and DELETE. The table contains three rows of sliders, each with a unique ID (1, 2, 3). Each row has a "SCENES" button and an "EDIT SLIDER(Sizes, design, options, ...)" button in the OPTIONS column. The SHORTCODE column contains a shortcode like "[nova 1 /]". The PHP CODE column contains a PHP snippet: "<?php echo apply\_filters('the\_content','[nova 1 /]'); ?>". The DELETE column contains "Delete" and "Clone slider" buttons.

SLIDER	OPTIONS	SHORTCODE	PHP CODE	DELETE
1	SCENES EDIT SLIDER(Sizes, design, options, ...)	[nova 1 /]	<?php echo apply_filters('the_content','[nova 1 /]'); ?>	Delete Clone slider
2	SCENES EDIT SLIDER(Sizes, design, options, ...)	[nova 2 /]	<?php echo apply_filters('the_content','[nova 2 /]'); ?>	Delete Clone slider
3	SCENES EDIT SLIDER(Sizes, design, options, ...)	[nova 3 /]	<?php echo apply_filters('the_content','[nova 3 /]'); ?>	Delete Clone slider

Nova slider admin

You can create an empty slider or create the demo. You can delete or clone the slider you want.

To display a slider on a page or post can copy and paste the shortcode that appears beside each slider. You can also use the php code to insert the slider directly into a theme. You also have a widget for placing the sliders .

Within each slider you can set:

- Sizes
- Thumbnails
- Navigation
- Borders and backgrounds
- Animations
- Colors
- Youtube music

## DESIGN

Border size   
Number in pixels. 0 not border.

Background color   
Select color

Border round   
Number in pixels. 0 not border round.

Shadow

## Slider Scenes

A scene may be simply a picture or you can create complex and stunning animations.

## SCENES

Order	Title	Duration	Background image	Thumbnail image	Effect	Effect time	Easing	Border color	
<input type="checkbox"/> 1	NOVA SLII	<input type="text"/>	 <input type="text" value="http://ww"/> <input type="button" value="Select"/>	<input type="text"/> <input type="button" value="Select"/>	Opacity	<input type="text"/>	swing	<input type="text" value="1ABC9C"/>	<input type="button" value="EDIT"/>
<input type="checkbox"/> 2	WP SLIDEI	<input type="text"/>	 <input type="text" value="http://ww"/> <input type="button" value="Select"/>	<input type="text"/> <input type="button" value="Select"/>	Rotate X	<input type="text"/>	easeInOutElastic	<input type="text" value="16A085"/>	<input type="button" value="EDIT"/>
<input type="checkbox"/> 3	FEATURES	<input type="text"/>	 <input type="text" value="http://ww"/> <input type="button" value="Select"/>	<input type="text"/> <input type="button" value="Select"/>	Rotate Y	<input type="text"/>	easeInOutElastic	<input type="text" value="1ABC9C"/>	<input type="button" value="EDIT"/>

Write duration and effect time in milliseconds. Leave fields blank to load the default values.  
 Edit the scene to insert text, images and youtube videos. You also have many more options like shadows, borders, colors, ...

Click the button "Edit" from the scene to insert and edit the elements of the scene.
